The Japan Household Panel Survey

Questionnaire about your family (Offprint)

◎ Request for entry

All the questions concern family information such as the number of family members, their birth years and months are extracted from the main questionnaire. Please fill in the “Questionnaire about your family” separately.

For the family members who have been entered in the previous survey, relationships, genders, birth years and months have been printed out in advance. Please fill in the blanks.

Furthermore, from this year, you will be requested to fill in some new information about your family members and relatives.

By obtaining a clear picture of the information from your family members and relatives, we are able to carry out a more accurate statistical analysis about relationships between family members and relatives, concerning parenting, nursing care and caring for grandchildren over generations. We would appreciate your understanding on this point.

From the next year onwards, to alleviate the burden of filling the form, we will print out the information you have entered this year in advance. Please rectify it, if there are any changes or mistakes in the content.

If you do not know the answers to any of the questions concerning your relatives, please ask them and fill in the survey as far as you can.

The purpose of this survey is for statistical analysis. As the result, the individuals, family members or relatives will not be identified. Please respond the questions truthfully.
