DAY 1 : December 18, 2017, Mon. 13:00-14:30

“Inequality and the passage of time:

How income dynamics can help to better understand inequality”

慶應義塾大学三田キャンパス 第一校舎 107教室

DAY 2 : December 20, 2017, Wed. 15:00-17:00

“Inequality and the passage of time:

Understanding the drivers of income dynamics for a better policy making”

慶應義塾大学三田キャンパス 東館4階 Open-Lab

講師： Céline Thévenot 氏

OECD 政策分析官 (雇用・所得部)

Ms. Céline Thévenot is a Policy Analyst at the *Jobs and Incomes* division of the OECD. She works on inequality, redistribution and social mobility. Her research areas focus in particular on the dynamic approaches of income inequality and their links with labour market dynamics. She contributed to the most recent OECD report on inequality, *In It Together, Why Less Inequality Benefits All* (2015). Before joining the OECD, Ms. Céline

Thévenot has worked for the European Commission (DG Employment) where she contributed to several flagship publications such as *Employment and Social Developments in Europe*. She has also served as a French civil servant in the Ministry of Employment and the Statistical Institute in France.
